Hexan distributed by Espo Lighting

INARCHI COMES TO LIFE AS MEMBER OF THE MANOOI GROUP

The designers responsible for the explosive success of the Manooi brand have made their new vision come to life, standing as minimalist complement to the Manooi range of luxury crystal chandeliers. "Leveraging the years of experience in manufacturing and distributing premium-class chandeliers, we decided to bring the Inarchi product line to life" explains Lead Designer, Janos Heder.

„These designs have been in our minds for the last two years or so, but the time, when we could make these product reality has come now. We are filled with multitudes of ideas, and now, beside the innovation and forward thinking that we bring into Manooi, we have a whole new World to shape and form, under the Inarchi brand. It is truly an uplifting feeling to have this project come to life - when the goal is clear, and the process of creation seems as organic as a flow of thoughts."

HEXAN

Cast, chiselled and polished bronze hexagon with high-performance LED lights

Glass hexagonal frame made with traditional techniques with high-performance LED light source

Painted steel frame with multiple high-performance LED lights

Elegance and grandeur are the two words that instantly appear in a spectator's mind - this element is made both with a full-face bronze body, shining with the timeless warmth of this classic material, and a frame-only appearance, in glass and steel versions, showing a minimal, ethereal face towards the world. These two fundamentally different approaches show a beautiful system of counterpoints, being able to shape the space they inhabit though contrasting appearances.
